

EVERYTHING STORED

next to the kitchen.

Your intelligently planned and logically furnished utility room.

nolte[®]
KÜCHEN

YOUR HOUSEHOLD FROM A WHOLE NEW PERSPECTIVE.

EVERYTHING IN *perfect order.*

In a well-planned utility room, there's exactly the right place for everything.

Simply more space for provisions, laundry, clothing ...

The utility room used to be an integral part of every household. Then it tended to go out of fashion, mainly for reasons of space – after all, living space has become increasingly expensive. But this is precisely why it is being rediscovered – and completely redefined: a utility room not only perfectly complements modern, design-focused kitchens, it gives the entire household a clearer and more practically organised structure. Because efficiently concentrated,

it provides a place for everything that is important and necessary for everyday housekeeping. From washing machine, tumble dryer, ironing board, provisions, cleaning products and equipment to coat rack and recycling system. This way, a utility room eases strain on the rest of available living space. And creates space for what's important: living in a relaxed home environment and enjoying life.

PERFECTLY PLANNED FOR ALL THE THINGS YOU NEED EVERY DAY.

- 1 WASHING MACHINE & TUMBLE DRYER
- 2 LAUNDRY
- 3 BOTTLES AND CRATES
- 4 HOUSEHOLD EQUIPMENT
- 5 CLOTHING
- 6 SORTING WASTE
- 7 PROVISIONS AND STORAGE

EVERYTHING HAS ITS PLACE

even in the smallest of spaces.

Well-organised for a good life.

When planning and furnishing your utility room, there are two main questions to address: What do I need – and where do I need it? The answers are then quickly found using our versatile solutions. Functionality, ergonomics and storage capacity are intelligently combined in a way that makes all areas a well-balanced unit. Because this simply makes everything so much easier – whether

doing the washing, ironing, putting away the shopping, getting changed after work, collecting deposit bottles and waste glass or whatever else you need to get done in your household. This is where the possibilities are as individual and flexible as your wishes. The many different options are described in detail on the next few pages.

EVERYTHING *in view.*

HOUSEHOLD TIP – SORTING WASHING CORRECTLY:

Don't sort worn clothes in just one laundry basket but use several baskets for pre-sorting – e.g. into light, coloured, sensitive and 60° or 95° washing.

Washing machine and tumble dryer in easy reach.

Everything completely relaxed. These appliances too in the utility room are positioned at an ergonomic height. A number of practical solutions are also available, such as the drawer for the laundry basket which eliminates the bother of having to bend down and helps to take some of the effort out of housekeeping.

Sorting and planning the washing more easily.

The laundry sorting unit with its drawers sorts washing into coloured, white and 95°-wash items almost automatically – even when closed thanks to the practical openings in the front.

Generously sized hanging cubicle.

Can take a lot: a coat rack integrated in the utility room, for example, lends itself to storing work clothes. A neat solution. Particularly when cloths are dirty. There's also plenty of space here for your summer or winter clothing when it's not needed.

Multi-sorted.

The practical pull-out systems come with ample space for cleanly and accurately sorting waste – providing the ideal basis for successful recycling and sustainable house-keeping.

Keeping beverages in easy reach.

The larger unit for beverages keeps everything in immediate reach because the various crates are clearly set out and open. This way, you can take out bottles and put empties back without having to juggle around with crates.

Clean, neat and tidy.

Various holders in the broom cupboard ensure that everything is kept in the right place – letting you put your hand on whichever household appliance you happen to need. And also everything else you need for cleaning, sweeping, ironing or vacuuming.

EVERYTHING NICE & FRESH

after it's washed and dried.

INTEGRATING WASHING MACHINES AND TUMBLE DRYERS:

The appliance housing base units lift your appliances to the optimum ergonomic work height.

LAUNDRY SORTING UNIT:

Simply stand it exactly where laundry is washed and dried. 3 pull-outs complete with laundry sorting baskets.

MORE THAN A NEAT SOLUTION.

HOUSEHOLD TIP – GETTING MOULD STAINS OUT:

Putting garments and other textiles away in a poorly ventilated place while they are still damp can result in mould stains. To remove them, simply soak the affected areas in buttermilk and then machine-wash in the normal way.

This is where you save space and time every day.

Our sorting solutions make it easy for you to minimize the time taken to do your washing – with maximum effect. Because everything is arranged and designed to let you reach your target as quickly with a little work as possible: clean laundry.

EVERYTHING NEATLY

in its place.

TIP ON SORTING WASTE:
Yogurt pots don't need to be rinsed out before disposing of them in recyclable waste. The water used adversely affects the ecological balance, and plastics are cleaned anyway before they are recycled.

Practical waste sorting.

Systematically sort and prepare waste and recyclables for proper recycling.

SINK BASE UNIT:
With waste-sorting system.

VGA Hallway unit with interior pull-out.

↔ 60
 ↓ 195/210/225
 ↙ 60

Practical internal pull-out – the ideal way to store smaller-type garments, such as gloves, scarves and hats, so they are always in easy reach.

EVERYTHING READY
to put on.

Organisation that makes sense.

SHOE CUPBOARD:

Plenty of space for shoes – on the shelves and the shoe holders, each for 2 pairs of shoes on the inside of the door.

VSL

↔ 60
 ↓ 195/210/225
 ↙ 60

HOUSEHOLD TIP – REMOVING SHOE ODOUR:

Sprinkle a little baking powder or baking soda in the shoes affected and let it work overnight, then tap it out thoroughly. Cat litter, if used in the household, also binds odours – the best way to use it is to fill some into a small fabric pouch and place it in the shoe.

Mutual pleasure.

There are many advantages in using the utility room as an intermediate area for getting changed: dirty sports or work clothing immediately lands in the correct laundry baskets, outdoor footwear is kept out of living areas and everyday work clothes are waiting for every member of the household in one place.

EVERYTHING GOES,
whatever the space.

PLACE FOR SOCKS, LAUNDRY AND THE LIKE.

Quickly put away and neatly stored: the generously sized drawers give you immediate access to many small items of clothing, such as socks, underwear and swimwear. This brings systematic organisation to your wardrobes.

So, what sort of utility room would you like to have?

This, of course, depends entirely on the space you have and on your personal needs. Some prefer to use it as a storage room for household items, others turn it into a lovely dressing room with numerous drawers providing plenty of space. Just as you please.

Two rolled into one:

Create the perfect room divider: on the one hand a practical utility room with everything that goes with it, and, on the other hand, an attractive hallway area with coat rack and wall unit as a chest of drawers – where keys can be kept, for example.

EVERYTHING DIVIDED UP

into separate areas.

EVERYTHING CLEVERLY STORED AWAY

in the smallest of spaces.

Clearly organised:

You only have a few square metres? Not a problem. With a couple of clever solutions, even a small utility room can make a big splash. One recommendation here, for example, would be a space-saving laundry base unit – a practical alternative to the laundry sorting unit.

LAUNDRY BASE UNIT:

1 drawer
1 pull-out with 2 laundry baskets
